# INTRODUCTION

Each year, the Virginia Beach Sheriff's Office collects accurate, uniform data for every allegation of sexual abuse and sexual harassment for public and internal use. The information contained herein provides a comparison of incidents from the last three calendar years (2020 - 2022) when reviewing allegations of inmate-on-inmate and staff-on-inmate data. This report has been reviewed and approved by Sheriff Ken Stolle and is utilized by the Sheriff's Office Prison Rape Elimination Act (PREA) Coordinator and Command Staff to formulate corrective measures in efforts of reducing future incidents of sexual abuse and sexual harassment.

## Data

This report provides data concerning the number of staff-on-inmate and inmate-on-inmate allegations within the male, female, and juvenile (youthful offender) populations of the Virginia Beach Correctional Center. All allegations received are investigated to final disposition regardless of the source of the allegation. The departure of the alleged abuser or victim from the authority, employment, custody, or care of the Virginia Beach Sheriff's Office is never a basis for terminating an investigation.

All data presented within this report is maintained for at least ten years after the date of the initial collection by the originating organizational command unit. All personally identifiable information is omitted from this report in order to protect the identity of the staff members and inmates involved in the associated investigations. The Sheriff's Office completes and submits the Department of Justice Survey of Sexual Victimization (SSV) each year.

## Data Analysis

Jail records indicate the average daily inmate population (ADP) of the Virginia Beach Correctional Center in 2022 was 1119 with a demographic representation trending around approximately 13% females and 87% males.

Staff-on-Inmate allegations are investigated by the Virginia Beach Sheriff's Office Professional Standards and Accountability Office (PSO). Allegations received where evidence of conduct supports criminal behavior may be referred to the Virginia Beach Sheriff's Office Criminal Intelligence Unit (Intel) and/or the Virginia Beach Police Department (VBPD) for investigation. The Professional Standards and Accountability Office will handle only the administrative investigation.

Inmate-on-inmate allegations are investigated by the Virginia Beach Sheriff's Office Intel Unit. Allegations received or incidents of sexual abuse that occur within the Virginia Beach Correctional Center where the evidence of conduct supports criminal behavior are referred to the Virginia Beach Police Department (VBPD) for investigation.

The Virginia Beach Sheriff's Office does maintain an active Memorandum of Understanding (MOU) with the Virginia Beach Police Department governing investigations occurring within the Virginia Beach Correctional Center. The Sheriff's Office does not release information pertaining to investigations.

This report will dissect the overall data into two series of data consisting of Staff-on-Inmate Allegations and Inmate-on-Inmate Allegations.

# Problem Areas and Corrective Action

A review of the 2022 data suggests a continuation of inmate-on-inmate allegation trends identified in the 2021 PREA Annual Report such as using inmate-on-inmate allegations to circumvent established procedures to expedite staff response to a non-PREA related issue or manipulate the classification process to get inmates out of the housing unit or secure a more favorable housing unit for themselves.

The change in Inmate-on-Inmate allegations indicates a need to continue focusing on the protocols established. In 2020 the Intel Unit, responsible for investigating inmate-on-inmate allegations, added additional fields to the tracking and focused on differentiating between unfounded cases and allegations that do not meet the PREA definition of sexual abuse or sexual harassment. In 2022 13% of the inmate on inmate cases did not meet the PREA definition, this is an increase of 2% from 2021.

The overall Staff-on-Inmate allegations (25) stayed the same from 2021 to 2022. Of the 25 staff-on-inmate allegations, 96% (24) were unfounded and 4% (1) was unsubstantiated. The Virginia Beach Sheriff's Office remains committed to our zero-tolerance policy and conducts annual refresher training as required for staff, contractors, and volunteers.

There were no identified trends in the allegations regarding location of alleged incident. There were multiple inmates who made repeated, unfounded allegations against other inmates. Inmates who are determined to have knowingly and intentionally made false allegations may be subject to disciplinary action.

Renovations to our Master Control Room and security system have been completed. The renovations included the addition of or relocation of surveillance cameras to reduce blind spots inside the Correctional Center.
